

Regulation (EC) n. 1907/2006 “Reach”

Cividate Camuno
February 12th, 2021

Dear Customer,

As regards the provisions of the REACH Regulation and related legislation, Euro Sider Scalo Spa continues its efforts in order to ensure the correct fulfillment of all the obligations imposed.

Guidelines' interpretation of the agency "ECHA" (European Chemicals Agency) on the "requirements of substances in the Articles", led the European Association of steel producers "EUROFER" to define "ARTICLES" the products marketed by Euro Sider Scalo, which, can be considered a downstream user. Therefore, as required by art. 7 comma 2.b of regulation in object, our steel products belong to the category of articles that do not fall under the duty of registration.

Regarding obligation to communicate information on the substances contained in articles, designated as SVHC (substances of very high concern) in art. 33 of this Regulation, we inform you that the LEAD (Pb) was included in List of SVHC at the end of June 2018 (the SVHC's Candidate List was updated on 19th January, 2021 by the European Chemicals Agency (ECHA) and it is available on ECHA's website <http://echa.europa.eu/candidate-list-table>).

Substances of very high concern contained in articles – notify on SCIP database

Following the revision of the Waste Framework Directive (2018/851 / EU) and according to the provisions of art. 9, all articles containing an SVHC substance in quantities greater than 0.1% by weight must be registered in the SCIP database.

Therefore, The SCIP numbers of free-cutting steels, containing lead in concentration greater than 0.1% by weight, are listed below:

PRIMARY ARTICLE IDENTIFIER	ARTICLE CODE	ARTICLE DESCRIPTION	SCIP NUMBER
11SMnPb30 - 11SMnPb37 - 36SMnPb14	11SMnPb30 11SMnPb37 36SMnPb14	Free cutting steels round bars	6baf6b74-bd08-4073-bba1-6c96c41aa619

Best Regards
